CHILD PROTECTION POLICY

Committee members and staff should ensure the implementation of the Child Protection Policy produced by Comunn na Gàidhlig for Sradagan groups.

Parents should also be informed when registering their child for Sradagan that the group operates a Policy on Child Protection and the Policy Statement below should be brought to the attention of all parents.

POLICY STATEMENT

It is the policy of Comunn na Gàidhlig to take all reasonable measures and advise Sradagan and other groups to ensure the safety and well-being of all Sradagan members, other children and leaders in order to protect them from physical, sexual and emotional harm.

Your committee should bring the policy statement to the attention of all existing and new paid staff and volunteers. They should also be made aware of and be familiar with the guidelines in the full version of the policy which will enable them to implement the policy statement.
